

FIRSTICE®

We Reengineered Ice!

Safe, Non-Toxic, Effective, Reusable, Comfortable,

Relief of pain, edema following surgery & sports Injury. Shorten recovery between workouts. Beneficial during rehabilitation. Reduces opioid use.

- FirstIce maintains ideal on-patient temperatures up to 5-hours
- FirstIce outlasts traditional gel (up to 5.4 times longer)
- FirstIce conforms to the body, no thermal shock from extreme cold against skin
- FirstIce becomes snow over and over (and stays dry)
- Simple application fewer steps for caregivers, No drips, no mess, no kidding
- Smart engineering for durability - welded nylon bags make FirstIce incredibly tough

Multiple FirstIce patented Direct Stick Velcro bags allow for rotation between the freezer and in-garment use, Soft Thermal barrier allows comfortable direct skin placement application to compatible garments.

Available in three (3) sizes: 6" X 7" | 6" X 10" | 6" X 12
